Dear Tech Companies,

After 7 months of zero support, zero security, zero safety, zero privacy, and my Apple account being disabled and along with Google daily handing over my Google admins readily available accounts or Meta creating false child accounts or reviving my dead dads 3 years ago but now has a brand new Instagram account as if 2024 and steals identities, phone numbers, and human innocent lives and their family's with Meta owned "WhatsApp".....I now dafedbf finally with a CHOICE on PRIVACY and Cute Sounding "Cookies"....

To Agree....or Not To Agree so the question Watson....

Risk agreeing to the same cyber terrorists and cyber terrorism

I think I know what my choice will be....,after a long, non-negotiable argument.....and multiple Apple 1 sided only arguments with Apple, as instructed by Apple, I've created a brand new Apple account.....whereas pursuant to Apple's instructions.....Apple still wont let me use their new crater account and won't let me use the disabled Apple App Store.....

UNLESS I AGREE.....

To the Terms and Agreements set out by Cyber Terrorists who moonlight as Web Developers or Web Browsing Analytics with inside privileges that

cyber terrorists should not possess or our country to trust.....

Where the only way I can use my new Apple account is if I agree to allow more cyber terrorism....

However this time around....unfortunately for the cyber Terrorists....they have to ask permission now first before they go into your private accounts and decides and television media channels to start their profiling of you and cyber stalking you and terrorizing you since they didn't need permission before September 23rd 2024.:::

So now I must give the Terrorists my consent and my permission first to allow more of the same of not now worse cyber terrorism to YET AGAIN control all of my devices and all of my human civil rights and all of my basic human liberties.....mirroring exactly just like a rerun episode on a freakish YouTube channel in bizarro world and allow the Cyber Terrorism Nightmare to start all over again

As I'm still a prisoner of a special Sinister AI bot all up in my devices camouflaged as "automation" hidden within my emails, phone and settings controls, and text messages feeding private personal information and relaying criminal interference of my rights to this day...:I see why Apple wanted me to get rid of my current Apple ID and create just a new new Apple ID as my devices are too far infested with this corrupt AI Virus "automation"...and has been for the last 7 months and for me to "re-agree"....

"TO REDO IT ALL OVER AGAIN"....,,they must think Im quite the pawn or fool...."A Nightmare Do-Over"...or maybe just an "AI Guinea Pig... however I don't remember ever signing up for any die hard movie sequel that combines and meets up with an AI friendly sounding "Cookie" terminator AI Bot/ Armageddon Digital Iron Fist Bottest-tube movie experience or experiment?

So just like the last 7 months as being one of the few unheard unnoticed Adult American Digital Human Slave and Hostage wrongfully imprisoned by a Sinister war criminal designed AI Sentinel Apple ID Bot hiding as a "Secret Child Fake Counterfeit Profile" account in my 2nd hidden controlling iTunes Store with secret parental controls and corporate management credentials....using my stolen credentials "aka" disguised as a secret child profile....created by professional web developing Hack F%# Cyber Terrorists who are responsible for holding me Gagged and Hostage and Prisoner on the Dark Web Data Prison Camp ever since

08/10/2024....

Nope I choose freedom....

Not Communism disguised in Capitalism sheep's clothing....Maybe Apple, Google, Microsoft, and Mets should all go buy some islands somewhere together or maybe one of Saturns Moons and they can all go live there together playing cards and counting their customer's stained fat stacks of cash.... and they can all then hang out together forever and ever as they wont be needing any customers anymore or any time soon since they clearly care a lot more about protecting their own digital wallets instead of protecting their own loyal human customers and allowing these mentioned same cyber terrorists to inflict serious terrorism crimes on their own innocent and terrorized faithful customers...,so that must mean they don't really need or really want the burden of having any customers anymore and that the tech companies and the terrorists that they all work for.....they can all go be happy together and be happy as clams together forever snd ever and ever-after and they can all even go hack themselves or go hack each other, Then I hope a poetic hurricane that bares the ironic name of one of their malicious AI criminally programmed human rights violating terrorist sentinel AI bots.....Crashes hard into their thick fat rich islands and then cleanses those islands clean by washing and flushing them all out to sea and into an oblivion....
